Course Code: ITA0330
Course Name: Mobile Computing

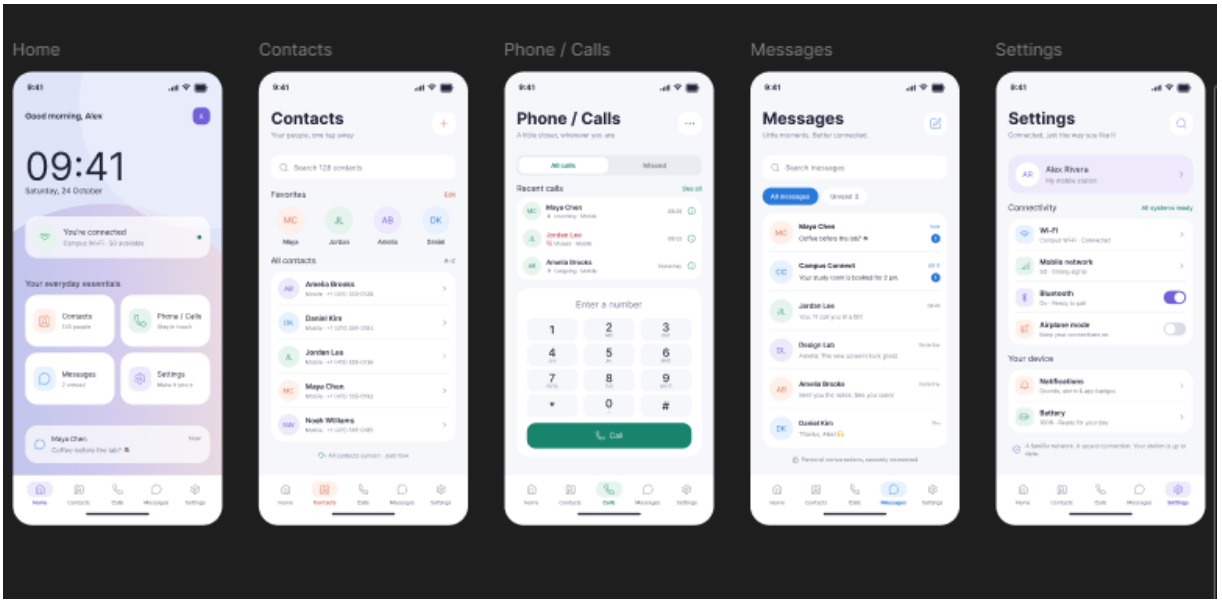

Experiment 2: Mobile Station User Interface Prototype

Aim: To design a mobile station user interface prototype in Figma, considering connectivity and convenience.

Procedure:

1. Open Figma and create a new mobile frame.
2. Design the home screen with a title and network status.
3. Add Wi-Fi, signal, and battery symbols.
4. Create buttons for calls, messages, internet, and settings.
5. Design additional screens for connectivity, calls, and settings.
6. Use Prototype mode to connect the screens through interactive buttons.

Output:

Result: A mobile station UI prototype with connectivity features and convenient navigation was designed successfully.
