EXPERIMENT 9: GSM SERVICE USER INTERFACE PROTOTYPE

Aim: To develop a user interface prototype for a GSM service using Figma.

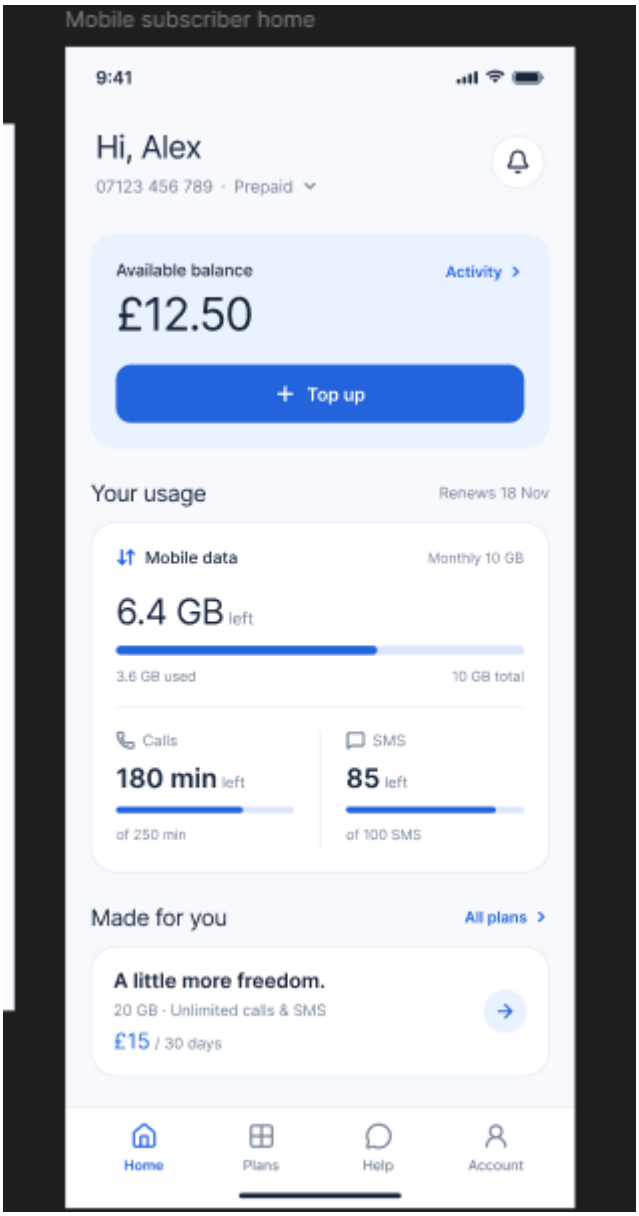

Procedure:

- Open Figma and create a new design file.
- Create a desktop frame and add the title “GSM Service”.
- Design a navigation menu with Home, Recharge, Usage, and Settings.
- Create a balance card with a recharge button.
- Add quick-action cards for calls, SMS, internet, and offers.
- Create a usage summary showing calls, messages, and data.
- Apply colors, icons, and text to improve the interface.
